We've been installing Cloud Backup services for many years. The benefits of backing up your data to the cloud are numerous:

- 1. Low Price, Cloud Backup costs \$50 per year
- 2. Alerts are sent to you if for some reason a backup didn't take place
- 3. Your data is somewhere else in the world, if there is a flood, fire, burglery at your home or business

We recommend Back Blaze Online Cloud Backup. Click link to sign up.
